

DIGITAL ANSWERER

29871GE3

Digital Answerer with up to 30 Minutes Record Time — Better reliability - no tapes or tape decks to break jam, or wear out. Digital microchip provides instant playback of messages.

3 Adjustable Viewing Angles — Enables best visibility of display and buttons.

Voice Time/Day Stamp — Voice stamp recites time and day each message received.

Auto Disconnect — Outgoing announcement automatically stops and resets when any phone in the house is answered.

Call Screening — Allows user to listen to caller leaving message.

Remote Function with Voice Menu — Voice menu system guides user through remote functions so no pocket card is needed.

Ring-Select Switch with Toll Saver (2,5,TS) — Gives user a choice of how many rings before answerer takes the call. Toll Saver delays answering if there are no messages, so if you are calling long-distance to check messages, you can hang up and avoid paying for the call.

29871GE3 Technical Specifications
